## HEAD ON SHELL-ON WHITE UNCOOKED Shrimp

ACC REGISTERED BUYER # B10021

DelicaSea® Uncooked, Head On, Shell-On, White Shrimp are processed from farm raised shrimp that have been grown in pristine waters under carefully monitored and environmentally sustainable conditions to ensure premium quality and freshness. White Shrimp (*penaeus vannamei*) is the most important shrimp in the global shrimp trade and is the primary choice of most shrimp farmers worldwide.

DelicaSea® Uncooked, Head On, Shell-On, White Shrimp are carefully handled and processed immediately after harvesting. The product is quickly sorted, graded and packed into a 4 lb DelicaSea® box containing an interior layer of poly wrap for added protection. A small amount of water is added to the product to freeze it into a "semi-IQF" form. This light glaze gives the product a protective barrier but also allows it to be quickly thawed. Once thawed, the shrimp can be used in a variety of soups or entrees such as paella, skewered and grilled shrimp, or peel and eat shrimp. More and more chefs are choosing to serve head-on shrimp because of their exotic appearance and succulent taste.
